

ANNUAL REPORT OF 2018-19

I am extremely pleased to present the special Annual Report which elicits my heart to acknowledge before one and all that we as a management and teaching community endure that during the past couple of years has long and a humble journey under the blessing hands and vision of respected Late Shri Labhudada. Last year we have crossed the golden jubilee with the persistent support and cooperation of parents and well wishers in the academic field and in other non academic relevances. Tripada International School Campus is important arm amongst five arms of Tripada Education Trust. Our academic year begins with Orientation programme for parents to impart them the details of school programs and educational activities throughout the year. Our school focuses on child centered education and skill based performances which emphasise on skills like listening, writing, speaking and reading. We ensured that each child is imparted with different spiritual as well as emotional aspects.. Our morning assembly begins with spiritual exposure which follows by the outdoor physical activities done by our tiny tots. We begin our academic activities with recap of previous day. We prepare our children truly to meet the academic demands and to enable them to face the challenges of this competitive world. From this year, we have introduced, NO BAG to the school for the beginners

of Std 1st to 4th . This endeavour is to ensure that the little one blossoms in the natural learning process without being blocked down with the weight of books.

Apart from the formal education that we impart, our special emphasis is not to neglect our important aspects of self development through enhancing social skills. That is taken care by remarking upon group activities, team activities, picnics, field trips, community lunch, yoga, joy of giving, visiting old age home etc. This year students not only took leading part in collecting material but enthusiastically by visiting, interacting and gifting the collected materials to the inmates of NGO, Ram Rahim at Behrampura. We have also made charitable contribution for Kerala flood affected people and affordable contribution for Phulwama soldiers' families too. In order to sensitize our students to extend their assisting hands to different people, Diya sale was also organized by the special disabled students in our campus.

Our students have also excel in extra curricular activities like sports and outdoor activities. We pay special attention to the students participating in both state and National level in Khel Mahakumbh, in games like athletics, badminton, table tennis ,

kabaddi, Kho- Kho etc. A special group has also participated in biggest sport activities like football tournament at Reliance Foundation. We are

immensely proud of our upcoming star, Kausha Bhairapur key champion & captain of Table Tennis under 16.

Our institution has a rare accomplishment of special school band which we are immensely proud as we are not only rendering musical band for in house activities & occasions but also invited by the other educational institutions.

In order to cope up with the contemporary world we impart special trainings so that they are well equipped to participate in different external exams of competitive nature. About 500 students of std I TO VIII have appeared for Science Olympiad exam. Out of which 200 students only from std 2nd took part in it. 6 students have entered the next level. 200 students have appeared for Talent search of science and Math organized by Centre of Excellence, Delhi. Almost all the students appeared for Hindi Rashtrabhasha exam. The special emphasis is given to our Matrubhasa Gujarati also. We ensure that the students have feeling of brotherhood by celebrating all the festivals and important days.

Another feather in the cap of Tripada is Scout and Guide. The school has special emphasis of all round development of child by not initiating them in sports and games but preparing them to face life challenges by making them take leadership role in activities of scout and guide. They have taken part in state scout and guides rally and camps. Our ten students have received Rajyapuruskar from none other than

honorable excellency Shri O.P.Kohliji. The 'Social Awareness Programme' 'Remove Plastic' was conducted at Sola Bhagwat . " Beti Bachao and Beti Padao"with active participation of parents as well was conducted. Rally was also held on Sardar Patel Jayanti. Moreover National Youth Day was celebrated on 12th of January. Forty Students took part in National Level Adventure Camp at Panchmarhi, from Scout and Guide.

We as an institution recognize the potential of our educators too. We not only provide the opportunity to blossom, but we also provide the special platform, in house training, conducting workshops and seminars to prepare them as per the demand of the time.

Last but not the least Theatre in Education is important aspects of our curriculum. Theatre in Education is a component of our education were by the children learn the art of self expression on the stage. We inculcate the self confidence by teaching them the skills of expression through words and relations. The parameters of the assessment are analysed on the basis of stage performance. COLOUR MY WINGS was a memorable event whereby 2000 students and facilitators performed on the stage with live orchestra. This event was acknowledged by gaining and entering to Limca Books of Record.

The special type of contribution and exposure is given to the child by emphasizing on value based self composed lyrics, poems, script writing, presentation with message to the society. This many aspects are devoid of Bollywood factors.

Our confidence lies on our students and teachers for their support and dedication. We are also thankful to the parents for their support and cooperation.
