### **MESSAGE FROM THE MANAGING DIRECTOR**

Dr. Archit Bhatt Managing Director

have been living and growing under the wings of 'TRIPADA' since its inception in the year 1968. These experiential years have taught me that children should not only be educated but also be left to educate themselves. Our institution has grown quantitatively and qualitatively for the past 50 years. It pioneered changes and successfully adapted and enabled its learners to adopt and adapt to digitalization. Moving forward, our forthcoming golden years would aim for an educated society rather than just upgrading the literacy ratio. Our education methodology focuses mainly to teach learner to think intensively and critically and get experience. Being a second home for the learner, it also focuses on respect for fellow beings, culture, secularism and patriotism. Having laid a strong foundation of commitment to quality education, it would continue to provide the platform of growth to be "Better Citizens for Better Tomorrow". I am inspired by the quote, 'Prepare the child for the path and not the path for the child.'

### FROM PRINCIPALS' DESK

Dr. Pratiksha Parikh
Principal
Tripada English School

mindedness is a big task for any academic institution. As I always believe that children are the foundation pillars of a well built nation, it is necessary to enhance the existing inherent capability of the children. With the combination of conservative teaching methodology and experiential learning, we lay the path for the child to experience the walk independently and convert their experiences into knowledge. The learning received here under the vision of creating a 'Better citizen for a better tomorrow, has given our educators to be responsible facilitators for their learners. 'Tripada' which means the three 'pods' or pillars represent an education which is enriched through the interwoven strings of the parent, the student and the school, weaving continuously for the learners' positive overall development. As an institution we are constantly working closely with all the learners for their clarity on content, striving to achieve consistent results and to become a confident individual to serve the community in all the aspects of life.

GOD, OUR CREATOR, HAS STORED WITHIN OUR MINDS AND PERSONALITIES, GREAT POTENTIAL STRENGTH AND ABILITY, PRAYER HELPS US TO TAP AND DEVELOP THESE POWERS.

### **MORNING PRAYER**

Lord, receive our prayers for our school and our country,
Protect the innocent, restrain the greedy and the treacherous,
and lead us out of our tribulations into a quiet land,
Look down upon ourselves and upon our absent dear ones.
Help us and them.

Prolong our days in peace and honour,
Give us health, food, bright weather and light hearts,
If we plan to do evil, frustrate our will,
If we plan to do good, further our endeavours.

Cause injuries to be forgotten and kindness to be remembered,
Let's lie down at night without fear,
So that we awake and arise tomorrow full of strength and joy.

### **PLEDGE**

India is my country.

All Indians are my brothers and sisters,
I love my country and
I am proud of its rich and varied heritage.
I shall always strive to be worthy of it.
I shall give my parents, teachers and all elders respect and treat everyone with courtesy.
To my country and my people,
I pledge my devotion. In their well-being and prosperity alone, lies my happiness.

### FOOD AND NUTRIENTS FOR YOUNG LEARNERS (1)

How your child eats today will have an impact on his/her health throughout their growing years. Consuming food helps children and teens to grow, develop, do well academically and feel good about themselves. Good nutrition also helps to prevent child and teen issues such as eating disorders, obesity, dental cavities and iron-deficiency, anemia etc.

Children need to eat a wide range of fruits and vegetables so their growing bodies can get all the vitamins and minerals they need to learn and develop, particularly in the years leading up to starting the school. It is very important for children to learn from an early age about good nutrition, trying new food and making healthy food choices

According to reports from the American Dietetic Association, the students who eat breakfast have better problem-solving abilities, recall, memory, verbal fluency & creativity as compare to students who skip the most important meal of the day i.e. breakfast. These students are also less likely to be absent.

Teaching children the importance of good nutrition throughout childhood will lay the foundation for a healthier and more fulfilling life.

### CANTEEN FACILITY OPTIONAL 😃

- 1. Provides nutritionally balanced food to children.
- 2. School lunch meets nutritional standards based on the latest dietary guidelines.
- 3. Specific calorie limits and age- appropriate meals for all the grades.
- 4. Children are more likely to try new food if they see other children eating. For all these, a time tabled snack time, supervised by staff is created to ensure that every child's need is met.

### OUTCOMES

- 1. To develop good eating habits.
- 2. To make the children learn about healthy lifestyles, including a healthy diet.
- 3. By offering a variety of food and repeatedly introducing new food, we encourage the children to develop their taste buds.
