

Date :- 18/10/2021

Dear Parents, Greetings.....

Kindly note that the Covid-19 situation is now under control in Ahmedabad and all are back to their daily routines. We need your cooperation and support to bring back the students too into their daily routine practices. We are taking the offline exam (Term -1) for the students to assess and evaluate the child and to understand the level of the child, since they are not coming to school from 1.5 years. It is very necessary to check their knowledge about content to improve and to guide them wherever is necessary. The offline exam will boost the confidence level of the child and would bring them back to their regular practice in academics, (with the parents consent).

The students who have problem had already given the written application and we will allow the child to appear the exam with the option to collect the paper from the school at 9:00 am to submit the paper on the same day after 3.5hrs. (i.e at 12:30 pm without fail), on daily basis, for proper evaluation of child, taking plagiarism an issue.)

We will follow all the guidelines and SOPs laid by the Government and will maintain the social distancing among the students during the exam. The below given points will be followed for the exam :-

1. The arrival and departure timings of the students will be different.
2. In one Class there only 21/22 students.
3. Face mask will be compulsory for all.
4. We will measure the temperature on daily basis on arrival.
5. Sanitizers will be kept at entrance, front of the toilets and in each and every floor as per the requirement.
6. No eatable items will be allowed. Students have to carry their own water bottle.
7. The distance of six feet will be maintained among the students as per the guidelines.

Expecting your support and co-operation.

Principal.
