

Grade I & II

21.03.24

Dear Parents,

Greetings !

Students studying KUDO - martial arts must pass through several ranks before attaining the highest one. As a student progresses through colored belts, they are taught ethics, discipline, etiquette and respect, in addition to physical training and defense skills. The belt system is more than just achieving a certain level of skill; it also teaches self discipline and helps set goals for improving. These colorful belts signify the growth the martial arts students make both inwardly and outwardly.

The YELLOW BELT holds significance in the KUDO. Yellow is a color of hope, just as the beams of yellow sunlight give hope to each new dawn. The yellow belt demonstrates that the student is in the learning phase. When a student comply with requirements concerning number of attendant days and physical power normative he/she is granted the right to take belt promotion exam where his/her skills level will be estimated and respected belt awarded.

We will be conducting the examination for YELLOW BELT-KUDO in our school on 30th March 2024 from 7.30 am to 9.30 am. Interested students can pay Rs 900/- for this exam in the account office by 25.03.24. Examination will be conducted in supervision of Kudo coach only.

If any queries, contact Mr Praveen: 9898985697.

Principal.
