STD I

Dear Parents,   Date: 13.06.24

Greetings!

We have arranged a meeting with LEAD on 15.06.24 at 8.00 am, wherein the team member will explain- How to operate Parent App/ Students App. Parents those who are having querries or technical issues related to Parents app can get the answers to their questions. Please see to it that only technical issues will be solved, No academics.

LEAD APP is based on live classes daily, attempt quizzes, complete homework & take assessments. The LEAD Student & Parent App allows parents of school to track the progress of their child. This provides better visualization to students providing robust conceptual clarity that is extremely critical for holistic learning. Learning by doing is something that LEAD attempts to inculcate in all its students.

The school will be working for the students.

Principal.
