

STD 2

Visit to GAUSHALA, Pindarda

Dear Parents,

Date: 18.08.25

Greetings!

Animals play a vital role in the ecosystem and human well-being. They provide us with food, materials for clothing and other products, and even contribute to our mental and emotional health.

We have arranged a **field trip to GAUSHALA** for students of grade 2 so that Students can learn about the daily care of cows/buffaloes, including feeding, hygiene, and overall well-being. It can foster empathy, responsibility, and a deeper understanding of the interconnectedness between humans, animals, and the environment.

Date: 20th August

Time: During school hours

Students have to come in proper school uniform with ICARD. They have to bring water bottle.

Nasta will be provided from school.

Lunch recess will be as same as daily basis.

Principal.
