

Dear Parents'

Greetings !!!

Hope you all are well and safe in this after lockdown period.

We have ended our Academic session 2019-20 completing our academic syllabus and activities facing challenges vigorously . Even the Annual performance was taken while the Annual written exams were planned on 17<sup>th</sup> March 20', but we closed from 16<sup>th</sup> March 2020 for the safety of our students due to Government declaration related to pandemic COVID 19 .The mass promotion was given to your child is promoted to next grade .This is to bring to your notice that fees for 2019-20 is still pending. So I appeal the parents to pay the pending fees of academic year 2019-20 at an earliest as you have provision of funds for education of your child.I would like to support parent fraternity for paying pending fees in installments .I earnestly request to kindly settle the payments as early as possible. Your prompt attention in this matter will be highly appreciated.

I am thankful to the parents who have paid the fees of academic year 2019-20.

We had started our new academic session 2020-21 in April and had moved to e learning with use of several applications along with conducting online classes and providing notes and worksheets to engross and engage our students at home during lockdown. There was an uninterrupted dissemination of education services provided by our valiant teaching staff despite awaiting their dues. It must also be noted that these educators who are going beyond the call of duty are solely dependent on their salaries for their livelihood.

The month of May 2020 was a vacation period for the students so we ended our sessions on 6<sup>th</sup> May.

We have not received any guidelines from Government for the academic year 20-21. But need to start online classes as imparting education is vital for the student . We are eagerly waiting for CBSE affiliation. The online classes, worksheets , notes , skill based activities will lead the student to achieve the learning outcome. The new academic year will be a challenge for parents, educators as well as students as all are into e learning.

Perhaps you are aware of Government decision permitting the schools to receive the fee payment for the new academic year from the parents who are capable of making the payments. This will help us to pay the salaries of the staff without delay. I solicit your cooperation in this regards.
